Leaders in Nonsurgical Pain Relief

Don't let pain put a halt on your active lifestyle.

At Tennessee Valley Pain, we help you get rid of the pain—and get back to living.

Whether you're a weekend warrior or just enjoy an active lifestyle, chronic pain can take the joy from even the simple things in life. At Tennessee Valley Pain we offer new therapies – and new hope – with advanced treatment that's convenient and less invasive.

From minimally-invasive procedures to x-ray guided therapies, we provide leading-edge pain management – all at our convenient location in Governors Medical Tower. As partners with the Huntsville Hospital Center for Pain Management, we're the region's leading

pain center. Our physicians are board certified in both pain management and anesthesiology, so they really understand pain – and how to relieve it. Our team will work with you to develop a treatment plan for your specific needs, utilizing a combination of therapies and our state-of-the-art x-ray guided procedures. Our focus is finding what safely and effectively works for you.

Call (256) 265-PAIN (7246) today or ask your doctor to work with us in developing your pain relief plan.

Our physicians are double board certified in both pain management and anesthesiology. Left to Right: John R. Roberts, M.D., Morris L. Scherlis, M.D., Roddie R. Gantt, M.D. and Ronald L. Collins, M.D.
