 Tennessee Valley  
**Pain Consultants**

## At Tennessee Valley Pain Consultants we help **relieve your pain** and get you **back to living**.

Whether you're a weekend warrior or just enjoy an active lifestyle, pain can take the joy from the simple things in life. At Tennessee Valley Pain we offer new therapies with advanced treatments that are more convenient and less invasive.

From minimally-invasive procedures to x-ray guided therapies, we provide the area's most trusted and advanced treatment options for common spinal, nerve and joint conditions - all at our convenient location in Governors Medical Tower. As partners with Huntsville Hospital's Pain Center, we're the region's leading provider of non-surgical pain relief for acute and chronic conditions.

Our physicians are double board-certified in anesthesiology and pain management, so they really understand pain and how to relieve it. Our team will assist throughout your evaluation and diagnosis and create an individualized treatment plan for your specific needs.

Our focus is finding  
**what safely and  
effectively works**  
for you.

**Call (256) 265-Pain**

or ask your doctor  
to work with us in  
developing your  
pain relief plan.

*Our physicians are **double board-certified** in  
anesthesiology and pain management.*
